Profile

B.Tech Information Technology Student (2027) with experience as an **Amazon SDE Intern (2025)**. Strong foundation in software development, SDLC, data structures, and algorithms. Skilled in building full-stack applications and AI-powered systems using Java, Python, React, and Spring Boot. Experience working on module development, debugging, testing, and deployment in team-based engineering environments.

Technical Skills

Programming: Java, Python, C++, JavaScript, SQL

Frontend: React.js, HTML, CSS, JavaScript

Backend: Spring Boot, Express.js, REST APIs

Database (RDBMS): MySQL, MongoDB

Cloud & Tools: AWS, Git, Postman, Swagger, Software Testing

AI / Machine Learning: LangChain, RAG Systems, LLM Applications, Prompt Engineering, NLP, Model Evaluation, Cross Validation, Groq LLM API

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, SDLC

Experience

Software Development Engineer Intern — Amazon

2025

- Contributed to development of application modules using Java.
- Built a WebView-based purchase system with secure transaction validation.
- Designed and executed 15+ unit and integration test cases improving system reliability.
- Assisted in debugging issues and deploying software updates.
- Collaborated with engineering teams and participated in technical discussions.
- Contributed to development of product features and functional components.

Projects

Paws & Care — Pet Service Booking Platform

Technologies: React.js, JavaScript, REST APIs

- Developed a platform connecting users with nearby pet caretakers.
- Implemented dynamic search, booking system, and responsive UI.

Online News Portal — Backend Application

Technologies: Spring Boot, MySQL

- Built secure REST APIs and optimized database queries.
- Implemented authentication and followed SDLC practices.

AI Healthcare Awareness Chatbot

Technologies: Python, NLP, LangChain, RAG

- Developed an AI chatbot providing healthcare awareness information.
- Integrated retrieval-based system to improve response accuracy.

Education

B.Tech – Information Technology

2023 – 2027

Sri Krishna College of Engineering and Technology

Higher Secondary Education – 91.3%

St. Thomas Matriculation Higher Secondary School

Achievements

- Solved 200+ Data Structures and Algorithms problems on LeetCode.
- Participated in Smart India Hackathon.
- Presented research on AI + IoT Women Safety System.
